"I feel my daughter could not have stepped into any other better playschool and nursery. Apart from all the teaching, the love, warmth and the personal care imparted towards each student is beautiful. Annika, my daughter communicated full sentences before she turned two and she misses her school on all holidays. I take this opportunity to congratulate you Jaanam for creating such a magical place on earth for our daughter for whom the word school means TOTAL FUN." ... **Tanya Sochi**

"Its like how Alice felt when she opened the door to wonderland." ... **Kiran & Rahul Patel**

"I just love this school. Wish I had a few kids to send here may be !! My kids Kimoya & Aryan are Jaanams products & doing very well !!!" ... **Shabnam Hemdev**

"I believe in a strong foundation and its here where both my kids found it ... hard work always pays GOD BLESS U !!" ... **Archana Jain**

"Great place just feels like walking into Disneyland a clean and safe place for kids. Great Activities" ... **Dr. Geeta Oberoi**

"I am very impressed with the little safe heaven for our little angels. The school has beat my expectations and I have to say that it is better than any nursery I have seen in London. Well done !" ... **Bablu Advani**

Established in 1996

"Early Birds", the Play-school, Nursery, LKG and Activity Centre run by Mrs. Genevieve Advani, BA Hons. in Sociology and Psychology believes in personalized education where learning is fun through the Montessori and Play way method.

Your child will jump right into our toddler classroom life because they will spend a lot of time doing what all children love - **PLAYING, SOCIALISING, EXPERIMENTING & DISCOVERING**. The Early Bird centre will help your child's development, from their first moments to their first day at school. The activities conducted are specifically designed for a particular aspect of a child's development. We balance this educational value with the fun factor keeping everybody happy, that's the magic combination we believe in. We actively encourage the children to play and learn at our centre, to motivate their skills by using products and programmes which are both educational and fun.

Role of play:

You might think your child is just having fun when she plays with all the educational toys, builds up a tower of blocks or plays with the musical instruments, and to a certain extent you'd be right. But with more than 75 percent of brain development taking place within the first two years, play is crucial in helping your child gain skills that will be essential to them later in life.

Our Teachers

Teachers at Early Birds are bubbling with energy and love that is constantly funneled into making your child's day special. But while that is important, it's not nearly enough. It is the job of a teacher to nurture, give care, maintain a safe-clean environment and implement our curriculum to foster your child's healthy development. Our teachers are encouraging and patient - which is exactly what your child needs to feel comfortable and safe. Teachers have mastered the art of interacting with your child through verbal and non-verbal communication, and by being receptive and reactive to all of his needs.

Great People, Top Training

Our teachers come to us with a variety of early learning backgrounds, and all grow and improve through our extensive training and professional development support programs. They work with trainers, with other teachers and also on their own to ensure they have all the tools necessary to be the kind of teacher you expect and we demand.

Your child deserves the best

Keeping Parents in the Loop:

We provide parents with Progress reports which tells you how your child is doing. The teacher is constantly reviewing your child's participation in the various daily activities. The Report also contains a tip explaining how to extend learning at home.

There are plenty of opportunities to connect face-to-face with teachers and the Head Principal at pick-up and drop-off time. If that's not convenient for you, we are always available for an extra conference or meeting should the need arise.

Safety during play:

All the toys used at the Early Birds centre undergo 'kid-proof' testing to guarantee quality and safety, sharp corners, small, removable parts that might be swallowed, battery hatches that are opened by little, determined fingers and toxic, chewable paints, all pose a serious risk to our children and are every parent's nightmare. Making sure that the toys we provide your child with are of the highest safety standard available, and won't cause them any harm, is of paramount importance.

Paints used are, non-allergenic and non-toxic, every area of design is inspected to ensure that your child can play safely.

Health & Hygiene

At Early Birds your child's health is of utmost importance to us, therefore we follow strict standards. All precautions are taken to keep the school & environment clean and pollution free. Children who have cold, cough or any contagious illness are requested to stay at home keeping the interest of themselves as well as other children in mind.

Our Wealth

Early Birds has invested in a wealth of resources so our teachers can have plenty of guidance when they create their daily lesson plans. Ultimately, experience itself is a great resource.

Academy teachers

Having worked with hundreds of children - Mrs. Genevieve Advani has a wealth of experience in seeing what is appealing, exciting and educational for your child.

The structured play of our curriculum gives teachers many ways to infuse skill building among all different developmental domains: physical, language, socio-emotional and cognitive.

By constantly listening, talking, describing objects and actions and expanding your child's ever-growing vocabulary, your child's teachers will expose her to critical language building skills. They will also help your child develop self-control while recognizing a healthy expression of growing self-identity.

Most importantly our teachers interact with children in a warm, enthusiastic, supportive respectful manner. Our curriculum is designed to prepare your child for a smooth transition to the best high schools.
